PANASONIC 18V DRILL/DRIVERS

Panasonic has introduced its first 18V cordless tools. Powered by Lithium-Ion batteries, the four models consist of the EY7950LR2S57 Hammer Drill/Driver, EY7450LR2S57 Drill/Driver, EY7550LR2S57 Impact Driver and EY7551LR2S57 Impact Wrench.

There's also three new 14V Li-Ion models — EY7442LR2S57 Drill/Driver, EY7546LR2S57 Impact Driver and EY7547LR2S57 Impact Wrench.

In addition to being available as separate units, the 18V and 14V tools also come in a range of combo packs.

Designed with innovative dust and water resistance, the models have met the rigorous testing criteria set by the International Electrotechnical Commission (IEC) and carry the Tough Tool IP56 rating.

The tools feature Panasonic's new high-capacity 3.3Ah Li-Ion battery. The batteries feature improved air ventilation, enabling the heat inside the pack to exhaust quicker, and a re-designed let-down attachment mode to make the battery easier to use and remove.

LIVOS BIVOS OIL WAX

The LIVOS Bivos Oil Wax #375 is an economical product for use in maintaining interior surfaces. It can be used to restore old furniture, wood carvings and timber floors as well as terracotta tiles and linoleum floors and the manufacturers claim it is certified safe for use on toys.

When completely dry, the wax produces a velvety glossy and moisture resistant surface.

The Oil Wax can be applied with wadded cloth or by spraying and one litre can cover 100-160 square metres, depending on the

method of application and the nature of the surface.

A full declaration of the natural ingredients is available from the web site.

BOSCH POLISHER

The Bosch GPO 12CE 180mm polisher is designed for heavy duty applications including professional wood polishing.

The tool features a powerful 1250W motor, electronic variable speed control and lock-on switch with integrated lock-on function for better control. A special plastic cover provides better insulation when you place your hand on the gearbox for extra pressure on the work surface and cooling is optimised by the air vents.

An automatic cut-off carbon brush function protects the motor. The unit weighs only 2.5kg and is compact (the handle is only 405mm in length).
