

PRODUCTS

Because the finish is applied to the wood while it is wet, it is now possible to strip, clean and finish decks, verandahs, exterior trim and outdoor furniture in a single day. After you have finished cleaning, the Spa-N-Deck goes on straight away.

Spa-N-Deck has been extensively trialled around the world in places such as Florida, Dubai, Thailand and at test sites in Australia such as the boardwalk in Noosa QLD.

The finish is available in eight colours — Natural, Cedar, Redwood, Sedona, Jarrah, Merbau/Kwila, Driftwood Grey and White. With a spreading rate of up to 40m² per four litre can, it is claimed to be more economical to use than most conventional finishes. Spa-N-Deck is available from selected hardware stores.

KIRSCHEN CARVING SETS

Kirschen have two carving sets in their range which are ideal for the absolute beginner or someone wishing to expand their carving skills. Both sets come ready for immediate use, including a wooden blank that is partially carved.

The sets feature different carvings to complete — a Door Plate (ART:3435) and Flower (ART:3436). Both sets come with the appropriate tools and an instructional DVD with step-by-step instruction on how to finish the carving.

The Door Plate set has four carving tools — 8mm Straight Chisel, 10mm Flat Gouge, 10mm Deep Gouge and 8mm V-Chisel.

The Flower set has five carving tools —

10mm Straight Chisel, 8mm Flat Gouge, 8mm Medium Gouge, 6mm V-Chisel and a Wood Carving Knife.

WASP & BLOWFLY SANDERS

Do you remember the Wasp and Blowfly Sanders? These innovative sanders were always a big drawcard at the Timber Shows when they were demonstrated.

They're back, but more refined, improved and available at a lower cost. They're still Australian made and now part of a larger range of innovative products — four for the workshop and two for the garden.

To watch all of these products in action, visit www.the2terrys.com.

COUNTER TOP FINISH

Combining natural oils, waxes and resins, Kunos Counter Top Oil #243 from Livos Australia is an impregnating oil suitable for solid timber interior surfaces such as bench tops. It creates a transparent, lustrous, open pored and water resistant surface in accordance with DIN 68 861 (the German Standard for durability of furniture

surfaces).

The Counter Top Oil #243 provides a food safe finish after 2-3 coats. It is certified to be colourfast when exposed to perspiration or saliva and is approved for use on toys.

One satisfied customer is the Organic Winery in WA. They say that their Kunos coated benchtop 'is unaffected in any way by spillage of red wine. All mishaps are wiped up without a trace'.

The packaging for the Kunos Counter Top Oil #243 has a full listing of ingredients. Livos/Kunos products are available from selected paint outlets.

1/4" T-TRACK

Following the introduction of their popular 5/16" aluminium T-track or mitre track,

McJing Tools have added the smaller 1/4" T-Track. This fits in a 19mm wide x 9.5mm high slot in the work table, has a 6.5mm wide gap in the top and accepts standard 1/4" (M6) hexagonal head bolts and T-fittings.

The 1/4" T-track comes in three lengths — 626mm (\$10), 835mm (\$16) and 1252mm (\$22). McJing Tools also stock the related M6 bolts and clamps.
